The Advantages of OceanSolution™

*Replace all fertilizers from seed to full growth for
less than \$7.00 an acre!!*

Don Jansen has been using pure ocean water to fertilize plants for over 20 years, continuing the pioneering work of Dr. Maynard Murray. Dr. Murray's book, *Sea Energy Agriculture*, published in 1976, was largely ignored. This book recounts Dr. Murray's experiments and presents his incredible findings. Recently, Acres USA picked up the cause and published an interview with Don Jansen in Sept., 2003. Since that interview, the interest in, and use of Dr. Murray's and Don Jansen's *Sea Energy Agriculture*, has skyrocketed.

Results being experienced worldwide are stunning;

- **Replace all Fertilizers from seed to full growth for less than \$7.00 an acre!!**
- **Increased yields**
- **Plant vigor**
- **Pest and disease resistance**
- **Longer shelf-life**
- **Superior taste**
- **Higher nutritional content & value**
